

Spanish 6

Cecilia Madden

We learn a lot of vocabulary about family, classroom objects, sports and many other subjects. Through presented dialogues we are learning short, useful, everyday conversation phrases. With the aid of the text "*Spanish is Fun*" we cover subjects from telling time to conjugating our first verbs. Exploring the culture through folktales, food and music is a favorite part of class. The year culminates with an extensive PowerPoint presentation from the students showcasing material covered throughout the year.
